Arctic spa ozone system manual

1347 US Gallons / 5100 Litreslength: 436 cm / 172 - / 14 ÅWIDTH: 236 cm / 93Å ç ä,~ Å³ / 8ä, ä,~ Å² Å³ / 8Å ç ä,~ Å² Å²: 129 cm / 51Å ç Å, ~ Å³ / 4 Å² You may be surprised that Arctic SpasÅ®, known for the world lesson and state-of-the-art design is conceived and built in the small prairie city of Thorsby, Alberta, Canada located just outside Edmonton. A small city like Thorsby is for everything that makes it an Å ç arctic spasÅ® so exceptional: a personal commitment for everything we do, the integrity and the hard work with which every spa is built, and above all, the incessant investment In the satisfaction of our customers. At Arctic SpasÅ® we work every day every day to offer a wellness center that exceeds what the rest of the industry has to offer with regard to longevity, efficiency, reliability and innovation. We believe that if you ask around, you will hear ... Company built on the principles of the small city with an eye to guide our sector all over the world. CANADA is a majestic land of beauty and endless geographical variety. Our spa cannot be helpful to be influenced by our surroundings - from our luxurious western red cedar cabinet, to our insulation system "a ç patented freeheat, in the world that leads the Onzen salted water system, we looked at Perfection of nature surrounding us. Nature. Simply. Perfect. All authorized Arctic Arctic spasÅ® resellers are required to maintain a minimum standard in online training in progress both for relations with the customer and for the service of products. A journey to The low production floor in an Arctic spasÅ,Å® Showcases production facility The best of both worlds. Precision cutting water jet robots actually work in our shell construction area while craftsmen gather by hand Our beautiful western red cedar cabinets before these components meet in a mixing of technology and touch that makes And anä ç Arctic SpasÅ® so unique and the most valuable possession your backyard. The ability to customize an Arctic SpasÅ® is one of the best characteristics of the brand.Coshose exactly what you want and you need. Personalized SeriesDepth & SPACE334 US Gallons / 1264 Litreheight: 104 cm / 41 - / 3 ÅWIDTH: 217 cm / 85Å ç ä,~ Å³ / 7 Å² Length: 217 cm / 85Å ç ä,~ Å³ / 7 ä,~ Å² Spa boy It is the new system of the Arctic spas that automatically manages chlorine in the pool water or wellness center. It is connected to chlorinator and indicates pH and chlorine levels on a smartphone or a computer screen. The Canadian Spa manufacturer, certified by HOTTBBSTAR, has begun by the observation that although many characteristics and accessories were available on the market to reduce treatment times and the number of chemicals used in spa, these devices required the direct water test By the owner, using the test strips. Which in the end could be an annoying and restrictive task - especially in the case of cold or bad climate. Thanks to Spa Boy, the most important criteria for water balancing (pH level and disinfectant) are automatically measured at intervals of a few seconds, using medical quality sensors. The results are transmitted to the Spa control monitor and clearly displayed on the smartphone screen, the system control screen and the SPS Web screen. The Spa Boy system also integrates with the Onzen salt water system to automatically adjust the disinfectant level. There is no more need for test strips, manual dosage or adjustment of disinfectant levels. Å. About Arctic Spas Spas has always been among the producers of Pioneer Spa that integrate new spa equipment, such as self-supporting and covered decks, vacuum sealed roofs Metal frames, ozone generators to integrate into a static mixer and treatment of gas effluents, the first LED lighting with external fixing, spa control through a smartphone application, the thermal baths connected with the monitoring of use and remote control, treatment Salt water, etc. The brand is fully committed to always complying the regulations that are increasingly rigorous in terms of energy consumption and to produce products responsible, safe and efficient.
